WHO WE ARE

OFFICINA ARCHITECTURAE is a team of designers. We want to be in step with the times and we are confident about our ability to interpret them. We pay careful attention to people and society. Our ambition results from **real passion**. Our over fifteen-year experience developed in several areas gives birth to a unique project, a new way of interpreting design objects. Our aim is to develop **handmade sculptures** based on metal structure combined with **wood, marble, glass**. A combinations of craftsmanship, design and technology. We basically start from reality, drawing inspiration from architecture and converting its miscellaneous forms into new objects. The result is a variety of **new shapes** combining the established contemporary style with a new language and new concepts.

SERVICES

OFFICINA ARCHITECTURAE proposes a selection of **LUXURY TABLES**. They are based on designed models in **precious finishes** and totally customizable.

We can also meet the most varied requests for **TAILOR MADE METAL WORKS FOR INTERIORS** as furniture, cladding, balustrades, staircases components.

Our **TEAM** of technicians can develop original ideas in order to reach best fabrication result through **3D design & engineering**.

The peculiar techniques used in our **WORKSHOP**, allows to bring to life any **creative idea**.
